

EARTH DAY

Origin

- ◆ Close to 48 years ago, on 22 April 1970, many people start protesting the negative impacts of industrial development.
- ◆ In the US and around the world, smog was becoming deadly and evidence was growing that pollution led to developmental delays in children.
- ◆ The global ecological awareness was growing .

Development

- ◆ Earth Day is now a global event ,each year, more than one billion people in 192 countries take action to do something good for Earth and prevent it from polluting.
- ◆ People beginning to march, sign petitions, meet with their elected officials, plant trees, clean up their towns and roads. (I think it is because global ecological awareness was growing.)
- ◆ EDN(Earth Day Network), the organization that leads Earth Day worldwide , appears.

EDN

- ◆ EDN(Earth Day Network) is the big organization that doing something important for Earth and let everyone know some environmental conscious.
- ◆ EDN is educating millions of people about the health and other risks associated with the use and disposal of plastics.
- ◆ They also launch the activity End Plastic Pollution for one years,this activity including educating people to reduce, refuse, reuse, recycle and remove plastics .
- ◆ This organization helps EARTH a lot .I think this is the one of the most important organizations .

EARTH DAY 2020: THE 50TH ANNIVERSARY

On Earth Day's 50th Anniversary in 2020, they want to change all that. The opportunity is before them now to use the 50th anniversary of Earth Day as a catalytic event to re-ignite the environmental movement and unite the vast array of groups and individuals who
